Date: 8th Dec'2014

To
Dr. Jayant V Iyer
Founder Director
The Vision Mission
Singapore

Dear Dr. Jayant,

Greetings from Trilochan Netralaya, Sambalpur, Odisha, India

Thank you so much for sending Dr. Jianping, Mr. Farooq & Mr. Avinash for the November 2014 trip as per my request and requirement. Dr. Jianping was helpful in looking after the clinics as well as setting up the telemedicine unit. Farooq did an excellent job by teaching five of my paramedics with refraction and Avinash could do a documentary videography.

In continuation to Project Netra, I would like to invite glaucoma consultants Dr. Shamira A Perera and Dr. Arun Narayanswamy to Trilochan Netralaya for the December'2014 trip. I am very much interested to learn glaucoma diagnostic skill and techniques of glaucoma surgery for them. Dr. Rupesh is also invited for the trip to help in doing some cataract surgeries. All of them will help our team in developing quality eye care measures.

TN will be grateful to these consultants for their selfless value addition support in the forth coming trip.

Thanking You.

Sincerely Yours

Dr. Shiva.
